

Exploring the **Raleigh Police** **Department's** NIBRS data (2014-2021)

Siddhartha Vanam
NC State Datathon
03.21.21

Agenda

1. Background
2. Executive Summary
3. Analysis
 - a. Exploratory Data Analysis (EDA)
 - b. Key Results
4. Recommendations for Improvement
5. Foreword: Machine Learning Approach

1. Background (1/2)

FBI Implementation: Suggested a shift in Reporting Systems.

- **Past:** Summary Reporting System (SRS) = An *aggregate monthly tally* of crimes.
- **Current:** National Incident-Based Reporting System (NIBRS) = *Detailed* context to incidents such as location and time of day.
- FBI's *Uniform Crime Reporting (UCR)* has officially **retired the SRS (01-01-2021)** and is **encouraging** and assisting agencies **to make the switch to NIBRS** .

1. Background (2/2)

Cost of Violent Crime is received by Health Care Systems for :

- Security
- Safety
- Prevention

\$9M

Per homicide

\$241K

Per rape or sexual assault

\$107K

Per aggravated assault

\$42K

Per robbery

2. Executive Summary

- + **Opportunity for Analysis**
 - + Seasonal Trends
- **Inconsistent Reporting**
 - Datetime transformations (Days)
- **Organization/ Clarity**
 - Cases can violate >1 Crime Code
 - District based reporting

Block Cases By Region

NE	3
Downtown	3
SE	2
NW	1
North	1

Visualization EDA 1

The Raleigh Police Department has six districts located throughout the city. Each district serves a specific geographic area: Northwest, North, Northeast, Southeast, Downtown, and Southwest.

4. Recommendations

Comprehensive Prevention

- Using the Data to **predict future crimes**.
- Coordinate between Regional branches to **reach the site ASAP**.

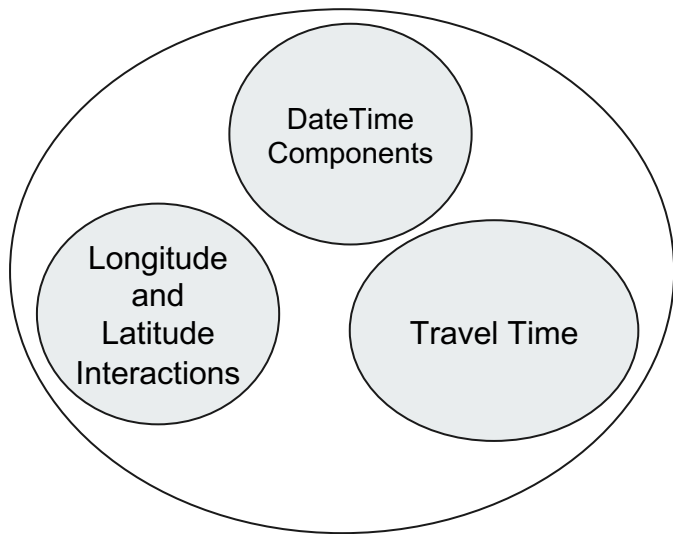

Data Integrity

- Ensure **fields are consistent**
- Keep a **data dictionary** to understand different features.

Public Transparency

- Keep the **public informed** with the status of cases.
- Market the available Data to keep the **public engaged** with **prevention plans** and **hotspots**.

Foreword: Machine Learning Approach

100k+ Total Features

*Classification
Model
(XGBoost)*

GOAL: Homicide
Prevention with high
Accuracy and Recall.
